**AFFIDAVIT IN SUPPORT OF WARRANTS TO SEIZE PROPERTY SUBJECT TO
FORFEITURE**

I, Samantha Wendt, being duly sworn, hereby, depose and state as follows:

INTRODUCTION

1. I am a Special Agent with the Federal Bureau of Investigation (“FBI”) and have been since June of 2023. I am currently assigned to the Washington Field Office. My primary duties include investigating violations of federal law, including securities fraud, wire fraud, bank fraud, and internet-enabled crimes. Part of those duties include investigating instances of wire fraud and bank fraud being used for financial gain at the expense of others. Before my career as an FBI Special Agent, I was employed as a Forensic Accountant by the FBI in the Seattle Field Office for two years. As part of that role, I conducted the financial portion of investigations, which included reviewing financial records and determining the sources and uses of funds. I have participated in numerous investigations related to financial crimes and have experience analyzing financial documents, interviewing suspects and witnesses, and reviewing evidence obtained from physical and digital search warrants.

2. This affidavit is based on my personal investigation and the investigation of others, including federal and local law enforcement officials whom I know to be reliable. The facts and information contained in this affidavit are based upon witness interviews and my review of records, documents, and other physical evidence obtained during this investigation. This affidavit does not include each and every fact known to the government, but only those facts necessary to establish probable cause to support the issuance of the seizure warrant.

3. Based on the facts set forth in this affidavit, there is probable cause to believe that

the property set forth in the “Assets to be Seized” section of this affidavit are the proceeds of wire fraud, in violation of 18 U.S.C. § 1343, and mail fraud, in violation of 18 U.S.C. 1341. The proceeds of wire fraud and mail fraud are subject to civil forfeiture pursuant to 18 U.S.C. § 981(a)(1)(C) and are subject to criminal forfeiture pursuant to 18 U.S.C. § 981(a)(1)(C) as incorporated by 28 U.S.C. § 2461(c).

LEGAL AUTHORITY

5. 18 U.S.C. § 1341 (mail fraud) prohibits, in pertinent part, whoever, having devised or intending to devise any scheme or artifice to defraud, or for obtaining money or property by means of false or fraudulent pretenses, representations, or promises, by placing in an authorized depository for delivery by mail, by taking or receiving from an authorized depository for mail, by causing to be delivered by mail or by any private or commercial interstate carrier, and by depositing or causing to be deposited to be sent or delivered by any private or commercial interstate-carrier for the purpose of executing such scheme or artifice.

6. 18 U.S.C. § 1343 (wire fraud) prohibits, in pertinent part, whoever, having devised or intending to devise any scheme or artifice to defraud, or for obtaining money or property by means of false or fraudulent pretenses, representations, or promises, from transmitting or causing to be transmitted by means of wire, radio, or television communication in interstate or foreign commerce, any writings, signs, signals, pictures, or sounds for the purpose of executing such scheme or artifice.

7. 18 U.S.C. § 981(a)(1)(C) (forfeiture for specified unlawful activities) provides for the forfeiture of any property, real or personal, which constitutes or is derived from proceeds traceable to any offense constituting a specified unlawful activity (“SUA”), as defined in 18 U.S.C. § 1956(c)(7), or a conspiracy to commit such SUA. 18 U.S.C. § 1956(c)(7)(A) provides that any act or activity constituting an offense under 18 U.S.C. § 1961(1) constitutes an SUA, with the exception of an act indictable under subchapter II of Chapter 53 of Title 31 of the U.S.

Code. 18 U.S.C. § 1961(1) references violations of 18 U.S.C. § 1343.

8. 28 U.S.C. § 2461(c) (civil to criminal forfeiture incorporation statute) provides that if a person is charged in a criminal case with a violation for which the civil or criminal forfeiture of property is authorized, the government may include notice of the forfeiture in the charging instrument pursuant to the Rules of Criminal Procedure. If the defendant is convicted of the offense giving rise to forfeiture, the Court shall order forfeiture of the property as part of the defendant's sentence. The procedures of 21 U.S.C. § 853 shall apply to all stages of a criminal forfeiture proceeding, except for subsection (d) of that statute.

9. 18 U.S.C. § 981(b)(3) (civil seizures) provides that notwithstanding the provisions of Fed. R. Crim. P. 41(a), a seizure warrant issued pursuant to that subsection by a judicial officer in any district in which a forfeiture action against the property to be seized may be brought, and may be executed in any district in which the property to be seized is found, or transmitted to the central authority of any foreign state for service in accordance with any treaty or international agreement.

10. 21 U.S.C. § 853(f) (criminal seizures) provides that the government may request a seizure warrant authorizing the seizure of property subject to forfeiture in the same manner as for a search warrant. The seizure warrant issues if the Court determines that there is probable cause to believe that the property seized would, in the event of conviction, be subject to forfeiture and that a restraining order may not be sufficient to assure the availability of such property for forfeiture.

11. A restraining order would be inadequate to preserve the bank accounts for forfeiture. Based on my training and experience, I know that restraining orders served on banks

sometimes fail to preserve the property for forfeiture because the bank representative receiving the restraining order fails to put the necessary safeguards in place to freeze the money in time to prevent the account holder from accessing the funds electronically, or fails to notify the proper personnel as to the existence of the order.

12. Under 18 U.S.C. § 984, for any forfeiture action *in rem* in which the subject property consists of cash, monetary instruments in bearer form, or funds deposited in an account in a financial institution:

- a. The government need not identify the specific funds involved in the offense that serves as the basis for the forfeiture;
- b. It is not a defense that those funds have been removed and replaced by other funds; and
- c. Identical funds found in the same account as those involved in the offense serving as the basis for the forfeiture are subject to forfeiture.

13. In essence, 18 U.S.C. § 984 allows the government to seize for forfeiture identical property found in the same place where the “guilty” property had been kept. The statute does not, however, allow the government to reach back in time for an unlimited period. A forfeiture action (including a seizure) against property not directly traceable to the offense that is the basis for the forfeiture cannot be commenced more than one year from the date of the offense.

PROBABLE CAUSE

THE SCHEME TO DEFRAUD

14. The FBI, the Treasury Inspector General for Tax Administration (“TIGTA”), and the United States Postal Inspection Service (“USPIS”) (collectively, the “Joint Investigation”),

are investigating a conspiracy which exploits the Internal Revenue Service's ("IRS") Modernized Internet Employer Identification Number ("Mod IEIN") online portal. Mod IEIN is the IRS system that allows users to register for a unique Employer Identification Number ("EIN") for a business. These transactions are processed at IRS Enterprise Computing Centers located in West Virginia and Tennessee, making each of these transactions an interstate wire communication.

15. The investigation shows that Fei LIANG ("LIANG"), Ziguang LI ("LI"), and others obtained EINs for various businesses in furtherance of a scheme to defraud. These EINs allowed the co-conspirators to open business bank accounts¹ at various financial institutions for the purpose of receiving fraudulent wire transfers. Through victim interviews and the review of complaints submitted to the FBI's Internet Crime Complaint Center ("IC3"),² law enforcement has determined that many of these wire transfers were the result of a tech support scam³ targeting older adults. The proceeds of this fraudulent activity were rapidly withdrawn or moved between bank accounts controlled by different co-conspirators. This rapid movement of funds is

¹ From training and experience, I know that fraudsters often prefer business bank accounts for schemes involving high dollar transactions. This is due to the perception that banks apply greater scrutiny to large deposits when they are credited to personal bank accounts.

² IC3 is an FBI-led program that allows victims of cyber-crime to file formal complaints. These complaints are made available to federal, state, local, or international law enforcement as appropriate.

³ From training and experience, I know that tech support scams typically involve a fraudster who impersonates an employee of a legitimate technology company (e.g., Microsoft) and offers to "fix" a non-existent problem on the victim's computer. The fraudster will often trick the victim into (1) giving the fraudster access to the victim's financial accounts (2) installing malicious software on the victim's computer, and/or (3) giving the fraudster remote access to the victim's computer. According to the National Council on Aging's website "In 2020, at least 66% of tech support scam victims were age 60 or older."

indicative of communication and coordination between various individuals in furtherance of the conspiracy.

16. On July 25, 2024, a grand jury indicted LIANG and LI on one count of conspiracy to commit money laundering, in violation of 18 U.S.C. § 1956(h) and six counts of concealment money laundering, in violation of 18.U.S.C. §§ 1956(a)(1)(B)(i) and 2.(Case No. 1:24-cr-170). It further alleged that the specified unlawful activity is wire fraud, in violation of 18.U.S.C. § 1343, and mail fraud, in violation of 18 U.S.C. § 1341.

The Source of Funds: Elder Fraud Scams

17. The investigation revealed a conspiracy that targeted unsuspecting victims through a nationwide tech support scam. Typically, the victims reported receiving a pop-up on their computer. The pop-ups included a phone number to contact for assistance. Once the victims called the phone number, the victim was advised to provide the purported technical support individual access to their computer. Upon doing so, the victim was often informed that their bank account had been hacked and the victim needed to secure their financial assets by transferring their money to the bank accounts associated with the conspiracy. The victim—believing they were sending money to address real issues with their computer and bank accounts—either wired money to bank accounts controlled by LIANG and coconspirators or mailed checks to coconspirators to be deposited into conspirator-controlled bank accounts.

The Fictitious Virginia Business Entities

18. On June 16, 2023, Dragon Auto Parts Inc. was incorporated by the Commonwealth of Virginia State Corporation Commission (“SCC”) with a registered agent of B.P. and registered office address of 7630 Little River Turnpike, Ste 720-10, Annandale,

Virginia 22003 (“7630 Little River Turnpike”). 7630 Little River Turnpike is associated with LocalWorks, which is a company that rents office space to individuals and businesses. The investigation revealed that LocalWorks had no records involving B.P. or Dragon Auto Parts Inc. renting office space.

19. On June 21, 2023, TD Bank account number xxxxxx6540 for Dragon Auto Parts Inc. (EIN: 93-1915932) was opened at a location in the Eastern District of Virginia. Included in the TD Bank account opening documents was a Dominion Energy customer bill for an identity theft victim identified here as “B.P.” showing an address of 1515 Richmond Hwy, Unit 906, Arlington, Virginia 22202 (“1515 Richmond Hwy”) dated June 5, 2023.

20. Records from Dominion Energy indicated that they were unable to locate an account associated with B.P., 1515 Richmond Hwy, or the meter number provided in Dominion Energy customer bill. Further, 1515 Richmond Hwy is associated with Crystal Square Apartments. Crystal Square Apartments had no records involving B.P. or Dragon Auto Parts Inc. renting Unit 906 in 2023. I reviewed bank surveillance footage associated with the June 21, 2023 bank account opening for TD Bank xxxxxx6540.

21. Two photographs obtained from the June 21, 2023 TD Bank surveillance footage reviewed are displayed below:

22. I have compared the photographs above with known images of LIANG. Based on that review and my training and experience, I believe the person depicted above to be LIANG.

23. Between June 26, 2023 and July 13, 2023, TD Bank account number xxxxxx6540 was the beneficiary of two wire transfers and one cashier's check deposit totaling over \$139,000. These deposits included a \$39,221.01 wire transfer from Victim-1's M&T Bank account on July 13, 2023. On March 4, 2024, I interviewed a 74-year-old resident of Connecticut (identified here as "Victim-1") who verified that the wire transfer from Victim-1's M&T Bank account to TD Bank xxxxxx6540 was the result of a tech support scam.

24. Further investigation revealed that business bank accounts were opened for Dragon Auto Parts Inc. (using EIN 93-1915932 and B.P.'s identity) at other financial institutions, including PNC, Truist, Citibank, Wells Fargo, and United Bank. Account opening documents associated with the Wells Fargo account in the name of Dragon Auto Parts Inc. indicated the business had five employees and was described as "Tire Shop and Automotive Parts." Financial analysis revealed no deposits or withdrawals consistent with an automotive business.

25. Between June 26, 2023 through October 17, 2023, the bank accounts described above, all opened in the name of Dragon Auto Parts Inc., were the beneficiary of 19 wire transfers and one cashier's check deposit, totaling over \$670,000, all from known or suspected victims. The FBI interviewed nine additional victims that deposited money into the Dragon Auto bank accounts, all indicating that money transfers were the result of a tech support scam.

26. Based on the fraudulent activity described above, I reviewed the Commonwealth of Virginia SCC records to identify additional businesses located at 7630 Little River Turnpike. This review identified several fictitious businesses, including:

- a. M&M Popular Package Food Inc. (EIN: 93-1572743, registered agent X.W.)
- b. LL Wang Food Trading Inc. (EIN: 93-1571607, registered agent L.W.)
- c. Crystal Accessories Inc. (EIN: 93-1916200, registered agent H.C.)

The investigation has identified each of the businesses referenced above was also associated with the residential address of 1515 Richmond Hwy. LocalWorks and Crystal Square Apartments had no records of the above individuals or entities being associated with their properties.

27. On April 25, 2024, I interviewed X.W., an identity theft victim, whose information was used to incorporate M&M Popular Package Food Inc. X.W. indicated that his identity appeared to have been stolen in the summer of 2023. X.W. filed a police report on July 10, 2023 related to the identity theft. I have compared the photographs of the individual depicted in the M&M Popular Package Food Inc. bank surveillance footage to the individual I interviewed in April 2024 and do not believe the person depicted in the surveillance footage is X.W. I have compared the surveillance footage to known pictures of LIANG. Based on my review, I believe the person depicted in the surveillance footage (purporting to be X.W.) to be LIANG.

28. Upon reviewing various bank records, IRS's Mod IEIN records, Postal Service Records and the Virginia State Corporation Commission ("SCC") records, numerous businesses have been identified as being operated by LIANG, LI, and/or other co-conspirators in furtherance of the scheme. The businesses identified include, but are not limited to, the following (collectively the "Fictitious Virginia Business Entities"):

- a. Dragon Auto Parts Inc
- b. M&M Popular Package Food Inc
- c. LL Wang Food Trading Inc
- d. Crystal Accessories Inc
- e. V&L Good Food Wholesale Inc
- f. Dug Duy Food Trading Inc
- g. Coco Love Nail Art Wholesale Inc
- h. Kim Fashionable Clothing Inc
- i. Leslie Cell Phone Accessories
- j. Roger Trucking Service
- k. Above and Beyond Heating Corp
- l. Kunblo Spring City Inc
- m. SZ Façade Management Inc
- n. Universe CCK Computer Inc
- o. Dragon Façade Management
- p. Hong & Yun Clothing Inc
- q. LMH Computer Service Inc

- r. Carson Truck Service Inc
- s. Phenix Beauty Supplies Inc
- t. Chia Supplies Co Limited
- u. Lena Castle Inc
- v. S&W Façade Management Inc
- w. Pure Life HL Inc
- x. BHB Products Trading Inc
- y. LT Restaurant Supplies Inc
- z. SSW Investment Inc
- aa. UJS Equipment Inc
- bb. Amcor Plus One Wholesale Inc

29. On April 30, 2024, a federal search warrant (1-24-SW-304) was issued by the Honorable Magistrate Judge Ivan D. Davis in the Eastern District of Virginia for three devices in LIANG's hotel room. On the cell phone associated with a phone number connected to LIANG, I reviewed WeChat communications between LIANG and coconspirators. The WeChat communications included identification documents, Virginia SCC incorporation documents, utility bills, and financial information associated with many of the Fictitious Virginia Business Entities.

The Fictitious Virginia Business Entity Bank Accounts

30. To date, I have reviewed over 100 bank accounts associated with the Fictitious Virginia Business Entities, including the **SUBJECT ACCOUNTS**. Review of the bank account activity associated with the Fictitious Virginia Business Entities did not identify business income

or business expenses. Rather, the bank accounts have nearly no activity other than the receipt of victim funds and the transfer of those funds to other bank accounts or the cash withdrawal of funds.

31. The bank accounts, including the **SUBJECT ACCOUNTS**, were often only kept open for a couple of months before being closed by the banks. Accordingly, each Fictitious Virginia Business Entity often held bank accounts at multiple financial institutions. For example, as discussed above, bank accounts associated with Dragon Auto Parts were opened at PNC, Truist, TD Bank, Citibank, Wells Fargo, United Bank, and Capital One. All seven of the Dragon Auto Parts bank accounts were opened between June 21, 2023 and September 5, 2023 and all the accounts had been closed by November 2023.

32. Based on my review of bank surveillance footage, an individual resembling LIANG was depicted conducting financial transactions associated with at least eight different entities, including Dragon Auto Parts Inc, LL Wang Food Trading Inc, Kunblo Spring City Inc, Crystal Accessories, M&M Popular Package Food Inc, SZ Façade Management Inc, Roger Trucking Service Inc, and Kim Fashionable Clothing Inc. None of the bank account signature cards indicate that LIANG is an authorized signor. The bank account signatories associated with each of the Fictitious Virginia Business Entities are different.

33. Review of WeChat communications on LIANG's device revealed that the coconspirators exchanged numerous credit reports, driver's license photographs, social security numbers, addresses, and date of birth for the individuals listed as registered agents and signatories for the Fictitious Virginia Business Entities. Review of the WeChat communications on LIANG's device also revealed the exchange of bank account information, such as passwords

and account numbers, associated with many of the Fictitious Virginia Business Entities and bank accounts linked to other suspected fictitious businesses. I believe this was done to enable multiple people to have access to the bank accounts in order to conduct and review financial transactions. For example, on November 16, 2023, an individual with the WeChat username ‘Customs’⁴ asked LIANG and coconspirators to “prepare the specialized account just for receiving the scam chat, and then get a few corporate entities to receive the cashier’s checks.” ‘Customs’ further stated, “the customer is rushing me daily to send accounts.” A few hours later, a coconspirator⁵ then sent the following account information:

Review of the WeChat conversations further indicated that ‘Customs,’ and other conspirators, accessed and attempted to access the bank accounts using the account information provided.

4 “Customs,” associated with WeChat ID wxid_5z4lkp1etp2212, was observed communicating with LIANG and other coconspirators on when to expect victim deposits, which accounts to direct victim funds be deposited into, and where to send the victim funds once received.

5 WeChat ID wxid_qmpg4rcyzx4a12, username “Breaking Waves.”

34. Review of the bank account opening documents indicated that a Dominion Energy utility bill associated with account number 6623958664, meter number 4825442, was often submitted for address verification. Records from Dominion Energy indicated that the meter number did not exist and that the account number was associated with an unrelated government entity. In reviewing the WeChat conversations, I identified numerous instances in which fictitious Dominion Energy utility bills were shared for different entity names, registered agent names, and addresses. On August 7, 2023, LIANG asks a coconspirator⁶ to update the utility bill. The coconspirator then sends the following image, depicting the areas of the utility bill that were changed:

36. The signatory cards associated with the account opening documents for the Fictitious Virginia Business Entities often indicate fictitious business purposes for the accounts. At times, incoming wire memos from victims reference fictitious business purposes, such as the purchase of a home, goods, or to support a friend's new business. Conspirators would often tell victims what to put in the wire memo line when sending the wire. I interviewed W.B., a 70-year-old residing in Two Rivers, Wisconsin, who told the bank that he sent \$18,099 to Dragon Auto Parts in order to purchase a truck, even though there was no truck.

37. Instead, the true source of the funds derived from tech support and other elder

fraud scams. On December 10, 2023, 'Customs' sent the following WeChat messages, indicating that the source of funds for these accounts relates to scams:

these two are to receive the small amounts from chat scams, referring to the single amounts of less than one hundred thousand

38. An excerpt of a January 4, 2024 conversation between LIANG and a

coconspirator⁷ is below:

LIANG: I have quite a few of my fake customers doing more than a million

Busy: what's the reason

Busy: is it clean funding or what

LIANG: all are scams

39. Based on my training and experience and the context of the WeChat conversation, I believe that LIANG is referencing the Fictitious Virginia Business Entities with the phrase ‘fake customers.’ Furthermore, I believe that the phrase ‘doing more than a million’ references the amount of deposits LIANG is able to receive before the bank closes the account. Notably, LIANG confirms that the bank account deposits relate to scam proceeds.

40. Review of the WeChat communications on LIANG’s device also included instructions on where to send the funds deposited into the bank accounts associated with the Fictitious Virginia Business Entities. For example, on February 21, 2024, ‘Customs’ sends the bank account information for Kelsea Limited and states “Only used for the refund of Account Name: Lena Castle Inc.” ‘Customs’ provides numerous accounts as withdrawal accounts for the scam proceeds, including: AUS Merchant Services, Kelsea Limited, and Tiger Fly Co. Notably, records from JP Morgan Chase indicated that even though the outgoing wires to Citibank accounts associated with Tiger Fly Co and Kelsea Limited appear to be credited to U.S.-based financial institutions, the true beneficiary is AUS Merchant Services, which is associated with Alipay.⁸ Based on my training and experience, I believe that these outgoing wires are a method to move the victim funds from the United States back to China.

The Subject Accounts

41. The government has employed the lowest intermediate balance rule (“LIBR”) in analyzing the **SUBJECT ACCOUNTS**, meaning the government determined which funds in the respective accounts constitute, or are traceable to, the proceeds of the mail and wire fraud scheme, and which funds are “other funds,” *i.e.*, funds not traceable to the mail and wire fraud scheme. LIBR is a method in which the government assumes the “other funds” in a bank account are spent before any funds in the account that constitute or are traceable to the mail and wire fraud scheme. This analysis is strictly based on the categorization of funds and not on the time of deposit; in these analyses, funds derived from a fraud scheme could stay in a bank account for years if the bank account was continually replenished with “other funds” for substantial periods of time.

SUBJECT ACCOUNT 1

42. On or around July 2, 2023, S&W Façade Management Inc was registered with the Virginia SCC. On September 5, 2023, **SUBJECT ACCOUNT 1** received one deposit of \$349,957 from K.A., a resident of Keller, Texas. **SUBJECT ACCOUNT 1** received no additional deposits. On November 21, 2023, **SUBJECT ACCOUNT 1** was closed and Citibank moved \$349,957 to an internal Citibank account.

43. K.A. was interviewed by the FBI and submitted an IC3 complaint indicating that she was the victim of a scam and initiated the wire transaction under fraudulent pretenses. As of

August 21, 2024, Citibank is holding approximately \$349,957 in an internal Citibank account associated with **SUBJECT ACCOUNT 1**. The funds remaining in **SUBJECT ACCOUNT 1** are victim funds and constitute proceeds of the mail and wire fraud scheme.

The deposit appears to represent the return of the September 8, 2023 transfer for the same amount. No additional deposits occurred in **SUBJECT ACCOUNT 2**.

46. J.K. filed an IC3 complaint indicating that they were the victim of a tech support scam. On October 2, 2023, Dort Financial Credit Union sent a Hold Harmless and Indemnity Agreement (“Hold Harmless”) related to the wire transfer from M.H. Based on my training and experience, I know that Hold Harmless letters are often sent after a victim has informed their bank that they were the victim of a fraud scheme and is attempting to recover their funds. On August 22, 2024, D.A. confirmed that their \$8,000 wire transfer to **SUBJECT ACCOUNT 2**

was the result of a scam. On August 24, 2024, I interviewed M.H. who indicated that they were the victim of a tech support scam and that they had also filed a police report with their local police department. On or around November 2, 2023, Citibank returned \$10,000 to J.H., who informed Citibank that the wire transfer was fraudulent.

On October 10, 2023, a Hold Harmless letter was submitted on behalf of J.S. and her funds were returned. I was unable to locate P.S.; however, Harvesters FCU appears to service five counties in Florida. One Source FCU is located in El Paso, Texas and Las Cruces, New Mexico. Based on my training and experience, and the investigation conducted to date, I believe that the wires from P.S. and One Source FCU were the result of a tech support or similar elder fraud scam.

52. As of August 21, 2024, Citibank is holding approximately \$58,096 in an internal Citibank account associated with **SUBJECT ACCOUNT 3**. I have probable cause to believe that the funds remaining in **SUBJECT ACCOUNT 3** are victim funds and constitute proceeds of the mail and wire fraud scheme.

56. No additional deposits occurred in **SUBJECT ACCOUNT 4**. A Hold Harmless letter was submitted on behalf of P.B. and her funds were subsequently returned. On August 23, 2024, Z.P.K. confirmed that the \$1,000 deposit related to an elder fraud scam. Based on my training and experience, and the investigation conducted to date, I believe that the wires from L.R., Z.B., and B.H. were also the result of a tech support or similar elder fraud scam.

57. As of August 21, 2024, Citibank is holding approximately \$54,127.44 in an internal Citibank account associated with **SUBJECT ACCOUNT 4**.
